

# One Day At A Time

by Peter Sills

Verse 1

One day at a time

That's enough for me

Yesterday has gone

Just a memory

But I'm living and a loving every minute of the day

Here with you

Verse 2

The future will unfold

We'll just wait and see

Oue sera sera

What will be will be

But I'm living and a loving every minute of the day

Here with you

Chorus

Maybe we can find a way to make this day last forever

(Last forever)

I would never change a thing,

No matter what the future brings

I only want to be with you - OOO

Verse 1 again
